

ELECTROPERMANENT MAGNETIC CHUCK 340 X 360 mm WITH 50 X 50 mm SQUARE POLES

Use : Heavy milling of medium size workpieces

Features :

- Square pole size 50 x 50 mm, number of poles : 20
- Magnetic force higher than 350 kg per pole.
- Minimum mechanical deformation thanks to solid one-piece housing.
- Distortion-free clamping with auto-shim pole extensions, without stray magnetic fields and no magnetization of the tool.
- Workpiece larger than the table size are machinable.
- Electropermanent technology with no deformation owing to the rise of temperature (Failsafe Electro-permanent technology – maintains hold even if power is cut).
- Supplied with electronic control box with control panel on front panel (400 Vac input voltage)
- Control box supplied with connecting cables.
- Weight : 50 Kg.
